MINOX TACTICAL OPTICS

Since the invention of the famous spy camera, MINOX has remained the synonym all over the world for cutting-edge technology. The name MINOX equally stands for extraordinarily innovative strength in the field of long-range optics.

Great emphasis has been put on the highest possible quality and mechanical precision during design and manufacture. Quality, precision, solidity and longevity – these are the values typical of the brand MINOX.

MINOX offers high-tech, premium quality for the highest demands and a comprehensive range of features – thus fulfilling the requirements for law enforcement and MIL standards.

The use of high-tech special glass, precisely constructed lens systems and first class coatings provide MINOX riflescopes with an excellent and high contrast image quality.

Your MINOX Team
Wetzlar, Germany

ZP

EXTREMELY RELIABLE UNDER HARSH CONDITIONS.

MADE IN GERMANY

With their in-the-field oriented features, the ZP riflescopes provide the highest possible reliability under the most stringent of conditions - fulfilling various optical and mechanical MIL-standards (e.g. MIL-STD 810 for environmental conditions such as watertightness, temperature, shock resistance).

- Complex optical design and special glass provide highest image quality even at the edges of the field of view
- M* multi-coating on the optical elements provide excellent light transmission, contrast and colour rendition, even in difficult light situations
- 8x e.g. 5x magnification for the highest level of flexibility and precision
- 34 mm solid tube made from aircraft grade aluminium
- Robust and extremely shock resistant construction
- Very large field of view for best overview
- Large eye relief of 90 mm (3.5") for greater safety
- Quickly adjustable diopter adjustment; optionally rubberarmored or out of aluminium if to be used with robust protective caps
- Illuminated reticle for unlimited concentration on the target regardless of the light situation, with automatic deactivation after 3 hours (ZP8), 6 hours (ZP5)
- Waterproof down to 15m (49ft.) - argon gas purged and fogproof
- Sophisticated tactical reticles for every situation
- Reticles: MR10+, MR10, A8-D, MR5, MR2, Mildot

BV 10x42 TAC

ALL-ROUND BINOCULARS WITH MIL RETICLE.

The BV 10x42 TAC with its multi-coated lens elements is the perfect all-round binocular for those that need to quickly find an object and maintain an eye on the finest of details. The MIL reticle guarantees a quick and reliable distance calculation of the object in view.

- Highly optimised optical performance
- M* lens coating for a bright image
- Neutral colour rendition
- 10x magnification; field of view at 1.000m: 114 m
- Non-slip, robust aluminium body
- Turnable eyecups
- The MIL reticle is completely compatible with standard MIL reticles in riflescopes; 0.5 mrad marks at the center of the reticle
- Nitrogen gas purged
- Waterproof down to 5 m (16.4 ft.)
- Weight: 780 g

MD 60 ZR / MD 80 ZR

SPOTTING SCOPE TECHNOLOGY REDEFINED.

MD 60 ZR

MD 80 ZR

MD 7x42 TAC

COMPASS-MONOCULAR WITH MIL RETICLE.

The MD 60 ZR and the MD 80 ZR are constructed with specially designed lens mirror systems to make them 20% shorter than conventional spotting scopes. To offer even more flexibility and perfect mobility, these new straight spotting scopes are equipped with fixed eyepieces with either 12x - 40x or 20x - 60x magnification.

- Rich contrast and brilliant image
- Specially designed lens mirror system
- Ultra compact - 20 % shorter than conventional spotting scopes
- Fixed wide-angle eyepiece: 12x - 40x (MD 60 ZR) or 20x - 60x (MD 80 ZR)
- Especially sturdy and impact-resistant metal housing
- With tactical reticle (1st focal plane)
- Waterproof down to 5 m and nitrogen gas purged to prevent fogging
- Anti-twist tripod mount
- Weight: 1620 g (MD 60 ZR), 2190 g (MD 80 ZR)

The integrated compass and reticle make the MD 7x42 TAC monocular the perfect navigator in nearly every situation. Equipped with a 7x magnification, the practical one-handed operation enables convenient and safe handling. The MIL reticle can be used to make accurate distance calculations or to determine the size of viewed objects.

- High-quality optics
- 7x magnification
- Extremely compact and easy to use
- Integrated compass
- The MIL reticle is completely compatible with standard MIL reticles in riflescopes
- Precise 1 mrad marks at the center of the reticle
- Perfect for terrain orientation and for use as a spotter
- Waterproof down to 16.4 ft. / 5m
- Weight: 370 g

Available as:

MD 60 ZR
MD 80 ZR

MINOX COMFORT SERVICE
OUR QUALITY PROMISE
FOR THE NEXT 30 YEARS

More assurance and service for your MINOX product even after the statutory warranty has expired: After the product registration MINOX customers take advantage of the MINOX Comfort Service. This service will be offered to MINOX customers for 30 years after the date of purchase.

The MINOX Comfort Service extended warranty covers all products in this brochure where the Comfort Service logo appears next to the product.

Please visit our website
